23. Appointment procedure – doc. José Luis Bellón Aguilera, PhD.

Field: History of concrete literatures (Romance literatures)

Chair:

prof. PhDr. Petr Kylvoušek, CSc.

Members:

prof. PhDr. Anna Housková, CSc.

Prof. Dr Jochen Mecke

Prof. Dr. Javier De Navascués Martín

prof. Mgr. Daniel Nemrava, Ph.D.

Proceedings: At the start of the proceedings, the chair of the evaluation board, Prof. Kyloušek, introduced the applicant and summarised the board's work.

The applicant then delivered his lecture entitled '*Literary subjectivation as the production/expression of the historical "I am"*'. The lecture presented a heterogeneous conception of literature, which is typically defined as the understanding of literature as a verbal artistic discourse in which the 'I' articulates an inner truth and a relationship to the world, irrespective of its cultural or fictional status.

The paper was based on the thesis that configurations of subjectivity exhibit a variable and historically conditioned character across different social formations. In this context, the question of a possible transhistorical dimension of the 'I' was explored. Instead of conceiving of literature as mere expression, it was proposed to consider literature also as a specific mode of producing subjectivity, understood as a process articulated within the interplay of social, literary and psychological forces.

In conclusion, the question was raised as to whether the modern subject represents a universal category or rather a historically contingent form, with emphasis placed on the role of literature in its constitution.

The lecture was followed by a discussion in which the candidate answered questions from members of the evaluation board and the Scientific Board.

Conclusion: The Scientific Board of the FF MU agrees with the proposal to appoint doc. José Luis Bellón Aguilar, Ph.D., as a professor in the field of the History of concrete literatures (Romance literatures).

24. Appointment procedure – doc. PhDr. Mojmír Dočekal, Ph.D.

Field: General and Diachronic Linguistics

Chair:

prof. RNDr. Václav Blažek, CSc.

Members:

Univ.-Prof. Dr Hana Filip

prof. Franc Marušič

Prof. Dr Roland Meyer

prof. PhDr. Ludmila Veselovská, Dr.

Proceedings: At the start of the proceedings, the chair of the evaluation board, prof. Blažek, introduced the applicant and summarised the board's work.

In his lecture entitled '*Experiment in Linguistics*', he presented research into the acquisition of meaning in Czech at the intersection of formal semantics and experimental linguistics. He focused on how Czech children interpret distributive and cumulative readings in universal quantifiers and bare noun phrases, and how their linguistic system gradually converges with adult grammar. Drawing on data from both child and adult speakers, he demonstrated that different types of expressions are acquired at varying rates and that the development of meaning interpretation is not uniform across all linguistic levels. The results were presented with particular emphasis on the experimental methodology and its contribution to the description of language development; at the same time, they were placed within the broader context of the presenter's previous research.

The lecture was followed by a discussion, during which the applicant answered questions from members of the evaluation board and the Scientific Board.

Conclusion: The Scientific Board of the FF MU agrees with the proposal to appoint doc. PhDr. Mojmír Dočekal, Ph.D., as a professor in the field of General and Diachronic Linguistics.
